

January 2009

To: Whistler Mountain Ski Club Masters Skiers

It is registration time again at the Whistler Mtn. Ski Club. Some of the many good reasons to join the club are:

- Be part of a community of ski racing enthusiasts (some might say fanatics)
- One year subscription to Ski Canada and Ski Racing Canada
- Club membership is required before you can participate in any Alpine Canada sanctioned Masters events
- You can volunteer at races and be a part of the club vision—developing champions for 2010 and beyond
- Whistler-Blackcomb has 2 masters races scheduled this season and you must be a member to enter these, and they also have adult races which anyone can enter.

FEES

MASTERS - CLUB EVENTS (\$75.00)

If a racer is only going to be participating at events within your club and not at any other club, this is the category for you. Registration is valid as soon as they are entered into BC Alpine's database, however their information does not show up on BC Alpine or Alpine Canada's website and they will not be allowed to enter races outside of your home mountain. Only the local club will see that they are registered.

NOTE: Some events still may not allow them to enter without a national card number.

MASTERS - BC LEVEL (\$104.00)

This category allows the Masters racer to participate in any event in British Columbia. Their information will show up on BC Alpine's but not on Alpine Canada's website, so any club in the province can verify that they are registered.

NOTE: Some events still may not allow them to enter without a national card number.

MASTERS - NATIONAL w/NPL (\$123.00)

Registration in this category gives the Masters racer a national card number and allows them to enter any event in the country. Their information shows up on BC Alpine and Alpine Canada's website. Allow approximately one week after registering on BC Alpine's registration database for the registration to become active with Alpine Canada and the National Points List.

The CANADIAN MASTERS PROGRAM is open to alpine racers aged 18 and over as of December 31. The national agenda is driven by the Canadian Masters Working Committee, which is currently governed by Alpine Canada (ACA) and implemented by Provincial Ski Organizations (PSO). See www.acamasters.com
